

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Presented in Canadian Dollars)

Independent Auditor's Report

To the Shareholders and the Board of Directors of
Nations Royalty Corp.

Opinion

We have audited the consolidated financial statements of Nations Royalty Corp. (the "Company"), which comprise the consolidated statements of financial position as at March 31, 2026 and 2025, and the consolidated statements of net loss and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2026 and 2025, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements for the year ended March 31, 2026. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Royalty Income – Refer to Notes 2 and 6 to the financial statements

Key Audit Matter Description

The Company estimates its royalty income based on the Mineral Tax payable or paid for the properties underlying its royalty interests. The operators of the royalty interests provide estimates of the royalty income on an on-going basis, with estimates reconciled annually to the Mineral Tax Return. In the event an operator is unable to provide royalty income estimates within the required times, the Company will estimate the royalty income based on public disclosures, where available, of financial and operational results disclosed or provided by the respective operator.

Royalty income is a key audit matter due to the magnitude of the balance and the high degree of subjectivity in applying audit procedures, which resulted in an increased extent of audit effort.

How the Key Audit Matter Was Addressed in the Audit

Our audit procedures related to royalty income recorded included the following, among others:

- Where applicable, confirmed the amount filed in the Mineral Tax Return directly with the respective operator and agreed the Mineral Tax Return to management's calculation and recalculated the total payment for the period.
- Evaluated management's ability to accurately forecast by comparing the prior year Notice of Assessment to management's historical estimates.
- For the period where the Company estimates royalty income using disclosures from the respective operator, we:
 - Assessed inputs used in management's calculation for reasonability by considering the published financial statements of the operator.
 - Performed a retrospective review and considered any contradictory evidence that would suggest that the estimate is incorrect.

Other Information

Management is responsible for the other information. The other information comprises the information included in Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the IASB, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the

going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Jayana Darras.

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Nations Royalty Corp. (formerly Vega Mining Inc.) (the “Company”) is a majority Nisga’a Nation owned company focused on acquiring royalties in the resource sector and was incorporated on November 21, 2007, under the Business Corporations Act (British Columbia). The Company changed its name from Vega Mining Inc. to Nations Royalty Corp. on May 3, 2024. The head office is Suite 3123 - 595 Burrard Street, Vancouver, British Columbia, V7X 1J1 and its registered and records office is located at Suite 2500 - 700 West Georgia Street, Vancouver, British Columbia, V7Y 1B3. The Company’s common shares trade on the TSX Venture Exchange under the ticker symbol “NRC”, the OTCQB market under the trading symbol “NRYCF”, and the Frankfurt Stock Exchange under the trading symbol “Y96”.

On June 18, 2024, the Company completed the Transaction (as described in Note 4), pursuant to which it acquired all of the issued and outstanding shares of Nations Acquisition Corp. (“Nationsco”) in exchange for common shares of the Company. In connection with the Transaction, the Company changed its name to Nations Royalty Corp. and changed its fiscal year end from May 31 to March 31. Following completion of the Transaction, the Company’s common shares were approved for listing on Tier 2 of the TSX Venture Exchange and commenced trading on June 21, 2024, under the symbol ‘NRC’. The Company carries on the business previously carried on by Nationsco.

2. BASIS OF PREPARATION

These consolidated financial statements (these “Financial Statements”) have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These Financial Statements have been prepared on a historical cost basis except for certain financial instruments that are measured at fair value. In addition, these Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information. These Financial Statements are presented in Canadian Dollars, which is also the Company’s functional and reporting currency.

The Board of Directors approved these Financial Statements on July 23, 2026.

a) Critical Accounting Judgments, Estimates and Assumptions

The preparation of these Financial Statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income (loss) in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The information about significant areas of judgment, estimates, and assumptions considered by management in preparing these Financial Statements is as follows:

Assessment of the Transaction

Determination of whether a set of assets acquired and liabilities assumed constitute the acquisition of a business or asset requires the Company to make certain judgements as to whether or not the assets acquired and liabilities assumed include the inputs, processes and outputs necessary to constitute a business as defined in IFRS 3 – Business Combinations. Based on an assessment of relevant facts and circumstances, the Company concluded that the Transaction was an acquisition of assets (Note 4). The values assigned to shares and the allocation of the purchase price to the net assets in the Transaction are based on the relative fair values of the assets and liabilities which approximate their carrying values.

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

2. BASIS OF PREPARATION (continued)

Royalty Income

The Company estimates its royalty income based on the Mineral Tax payable or paid for the properties underlying its royalty interests. Each operator provides estimates of the royalty income on an on-going basis, with estimates reconciled annually to the Mineral Tax Return. In the event the operator is unable to provide royalty income estimates within the required times, the Company will estimate the royalty income based on public disclosures, where available, of financial and operational results disclosed or provided by the respective operator. In some instances, the Company may not have access to sufficient information to make a reasonable estimate of royalty income to which it expects to be entitled, in which case revenue is not recognized until such time as information becomes available.

Share-Based Compensation

The Company uses the Black-Scholes option pricing model to determine the fair value of options in order to calculate share-based compensation expense. The Black-Scholes model involves five key inputs to determine fair value of an option: risk-free interest rate, exercise price, expected dividend yield, expected life, and expected share price volatility. Certain of the inputs are estimates that involve considerable judgment and are or could be affected by significant factors that are out of the Company's control. The Company is also required to estimate the future forfeiture rate, if any, in its calculation of share-based compensation expense.

b) Basis of Consolidation

These Financial Statements include the results of the Company and its wholly-owned subsidiary Nass Valley Area Royalty Holdings Corp. (British Columbia).

The financial results of the subsidiary are included in these Financial Statements from the date that control commences. All intercompany transactions and balances have been eliminated.

3. MATERIAL ACCOUNTING POLICIES

a) Cash and Cash Equivalents

Cash and cash equivalents consist of deposits and term deposits held in banks. The Company places its cash and term deposits with institutions of high credit-worthiness.

b) Royalty Interests

Royalty interests consist of acquired Royalties' rights pursuant to certain benefits agreements (the "Annual Payments"). Each royalty interest has its own unique terms and judgement is required to assess the appropriate accounting treatment. The Company has one reportable and operating segment with all its assets located in Canada. The determination of whether an acquisition should be accounted for as a royalty interest or a financial instrument requires the consideration of factors such as (i) the terms of the agreement; (ii) the applicability of the own use exemption under IFRS 9; (iii) whether there is a contractual commitment to repay amounts under the royalty interest and (iv) the expected timing and amount of future payments of the royalty interest with the respective Annual Payments.

c) Royalty Income

Royalty income represents amounts received or receivable from royalty interests under certain benefits agreements (the "Annual Payments") (Note 6). Royalty income is based on:

- Annual Payments: Annual ongoing payments based on a percentage of the annual Mineral Tax payable under the relevant Mineral Tax Act; and

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

- Net Smelter Royalty ("NSR"): Payments are calculated by multiplying the net smelter return for the calendar year by the applicable NSR rate.

Royalty income is measured at the fair value of the consideration received or receivable when management can reliably estimate the amount under the terms of the Annual Payments. Specifically, royalty income is recognized in accordance with the terms of the underlying Annual Payments agreements.

The Company estimates its royalty income based on the Mineral Tax payable or paid for the properties underlying the Company interests. Each operator provides estimates of the royalty income on an on-going basis with estimates reconciled annually to the Mineral Tax Return. In the event the operator is unable to provide royalty income estimates within the required timeframes, the Company will estimate the royalty income based on public disclosures, where available, of financial and operational results disclosed or provided by the respective operator.

d) Foreign Currency Transactions

The financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiary. Foreign currency transactions are translated into Canadian dollars using the exchange rates at the date of the transactions. Foreign exchange gains or losses resulting from the settlement of transactions and from the translation at year-end rates of monetary assets and liabilities denominated in foreign currencies are recognized in income or loss.

e) Share Capital

Common shares are classified as equity. Incremental costs directly attributable to the issue of common shares are recognized as a deduction from equity. Common shares issued for consideration other than cash are valued based on their market value at the date the shares are issued.

The Company has adopted a residual value method with respect to the measurement of shares and warrants issues as private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component. The Company considers the fair value of common shares issued in the private placements to be the more easily measurable component and the common shares are valued at their fair value, as determined by the closing market price on the announcement date. The balance, if any, is allocated to the attached warrants. Any fair value attributed to the warrants is recorded as reserves. The fair value of warrants is measured using the Black-Scholes pricing model, taking into account the terms and conditions upon which the warrants were granted.

f) Share-based Compensation

The Company's stock option plan allows Company employees, directors, officers and consultants to acquire shares of the Company. The fair value of options granted is recognized as share-based compensation expense with a corresponding increase in equity reserves. The fair value of the options granted is measured using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. Fair value is measured at grant date, and each tranche is recognized using the graded vesting method over the period during which the options vest.

At each financial reporting date, the amount recognized as an expense is adjusted to reflect the actual number of stock options that are expected to vest. In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at the fair value of the equity instruments granted, otherwise share-based compensation awards to non-employees are measured at the fair value of goods or services received. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides similar services to those performed by a direct employee.

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

g) Loss per share

Basic and diluted loss per share is calculated by dividing the loss attributable to the Company's common shareholders for the year by the weighted average number of common shares outstanding during the year.

h) New Accounting Standards Issued but not yet Effective

Amendments to IFRS 9 and IFRS 7 - Amendments to the Classification and Measurement of Financial Instruments

In May 2024, the IASB issued amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures. The amendments clarify the date of recognition and derecognition of financial assets and liabilities, clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest criterion, add new disclosures for financial instruments with contractual terms that can change cash flows, and update the disclosure for equity investments designated at fair value through other comprehensive income. The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with earlier adoption permitted. The Company is currently assessing the impact of the amendments.

IFRS 18 – Presentation and Disclosure in Financial Statements

In April 2024, IFRS 18 Presentation and Disclosure in Financial Statements was issued to achieve comparability of the financial performance of similar entities. The standard, which replaces IAS 1, impacts the presentation of primary financial statements and notes, including the statement of earnings where companies will be required to present separate categories of income and expense for operating, investing, and financing activities with prescribed subtotals for each new category. The standard will also require management-defined performance measures to be explained and included in a separate note within the financial statements. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements, and requires retrospective application. The Company is currently assessing the impact of the new standard.

4. REVERSE TAKEOVER TRANSACTION

On February 1, 2024, the Company entered into an amalgamation agreement with the Nisga'a Nation pursuant to which, among other things, the Company would acquire from the Nisga'a Nation the rights to five benefit payment entitlements (the "Royalties") (Note 6) in benefits agreements the Nisga'a Nation has in place in respect of mines and projects within the Golden Triangle Area, located in northwest British Columbia, in exchange for common shares of the Company (the "Transaction").

Concurrently with, and as a condition to, completion of the Transaction, Finco, a wholly-owned subsidiary of the Company, completed a private placement (the "Concurrent Financing") on April 9, 2024, of 11,111,112 subscription receipts (each, a "Subscription Receipt") at a price of \$0.90 per Subscription Receipt, for gross proceeds of \$10,000,001. All proceeds of the Concurrent Financing were held in escrow pending satisfaction of the closing conditions to the Transaction. Upon satisfaction of the escrow conditions, immediately prior to completion of the Transaction, each Subscription Receipt was automatically converted into one common share of Finco and the funds held in escrow were transferred to the Company's unrestricted bank account.

On June 18, 2024, the Transaction was completed by way of a three-cornered amalgamation under the provisions of the Business Corporations Act (British Columbia) whereby Finco amalgamated with Nationsco, a wholly-owned subsidiary of the Nisga'a Nation formed to hold the Royalties prior to closing and having had no other assets or material financial liabilities or obligations, with the resulting company being named Nass Valley Area Royalty Holdings Corp. ("Nass Valley Area Royalty"). All of the issued and outstanding shares of Nass Valley Area Royalty following the amalgamation were immediately exchanged

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

4. REVERSE TAKEOVER TRANSACTION (continued)

for common shares of the Company on a one-for-one basis (the "Consideration Shares"). The Consideration Shares and most of the currently existing Company shares are subject to voluntary pooling restrictions and will be released over a period of 36 months from completion of the Transaction (Note 7). Pursuant to the Transaction, the Company issued an aggregate of 111,100,000 common shares to the Nisga'a Nation in consideration for the assignment of the Royalties.

Upon completion of the Transaction, including the Concurrent Financing, (i) the existing shareholders of the Company held approximately 15.56% of its issued and outstanding shares; (ii) the Nisga'a Nation held approximately 76.76% of the Company's issued and outstanding shares; and (iii) the investors in the Concurrent Financing held approximately 7.68% of the Company's issued and outstanding shares.

The legal acquisition of Nass Valley Area Royalty by the Company constitutes a reverse asset acquisition. As a result, the Transaction is accounted for in accordance with IFRS 2 – Share-based Payment, as a reverse acquisition with Nass Valley Area Royalty being identified as the accounting acquirer (legal subsidiary) and the Company being treated as the accounting acquiree (legal parent).

As consideration for 100% of the outstanding shares of the Company, Nass Valley Area Royalty issued 33,630,637 common shares with a value of \$0.90 per share, being the value of the Concurrent Financing, on a one-for-one basis to the shareholders of the Company. In addition, Nass Valley Area Royalty issued 700,000 replacement options, in exchange for previously outstanding options of the Company with a fair value of \$523,513, using the Black-Scholes valuation model with the following assumptions: i) exercise price per share of \$0.10; ii) expected share price volatility of 75%; iii) risk-free interest rate of 3.24%; iv) expected life of 5 years; v) no dividend yield. The consideration paid was allocated first to the fair value of the net assets acquired, with any excess to listing expense as follows:

Consideration		
33,630,637 common shares issued with a value of \$0.90 per share	\$	30,267,574
700,000 replacement options		523,513
	\$	30,791,087
Identifiable net assets		
Cash	\$	9,328,348

Other receivables	1,722	-
GST and other recoverable taxes	-	4,517
Total amounts receivable	1,805,877	895,485

The accrued royalty income balance is the Company's estimate of revenue from the Brucejack mine. Proceeds from the Brucejack Annual Payment are received once per year and consists of amounts accrued over a 12-month period.

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

6. REVENUE

The Company currently generates revenue from one royalty interest, the Brucejack mine operated by Newmont Corporation. The revenue is an Annual Payment and is calculated based on amounts payable by Newmont Corporation under the Mineral Tax Act. The following table summarizes the Company's total revenue from royalty interests during the two years ended March 31, 2026 and 2025:

	March 31, 2026 (\$)	March 31, 2025 (\$)
Revenue from royalties		
Brucejack	1,613,576	843,745
Total revenue from royalties	1,613,576	843,745

7. SHARE CAPITAL

a) Authorized

Unlimited number of common and preferred shares without par value.

b) Issued and fully paid

For the 12 months ended March 31, 2026

On January 30, 2026, pursuant to a public offering, the Company issued 9,375,000 shares at a price of \$1.60 per share for total gross proceeds of \$15,000,000. The Company paid total cash commissions of \$1,321,705.

During the year ended March 31, 2026, the Company issued 1,125,000 common shares resulting from the exercise of stock options.

For the 12 months ended March 31, 2025

During the year ended March 31, 2025, the Company issued 144,730,637 common shares in connection with the Transaction (Note 4).

	Number of shares
Outstanding shares of the Company	22,519,525
Shares issued - Concurrent Financing	11,111,112
Shares issued to the Nisga'a Nation	111,100,000
Total	144,730,637

c) Stock options

The Company has established a "rolling" Stock Option Plan (the "Plan"). Under the Plan, the number of shares reserved for issuance may not exceed 10% of the total number of issued and outstanding shares and, to any one optionee, may not exceed 5% of the issued shares on a yearly basis. The maximum term of each option shall not be greater than 10 years. The exercise price of each option shall not be less than the market price of the Company's shares at the date of grant. Options granted to consultants performing investor relations activities shall vest over a minimum of 12 months with no more than 1/4 of such options vesting in any 3 month period. All other options vest at the discretion of the Board of Directors.

(Expressed in Canadian Dollars)

7. SHARE CAPITAL (continued)

The Company uses the Black Scholes option pricing model to determine the fair value of stock options granted. Changes in stock options during the year ended March 31, 2026 are as follows:

	Number of stock options (#)	Weighted-average exercise price (\$)
Outstanding - March 31, 2024	-	-
Granted	11,250,000	0.85
Forfeited	(937,500)	0.90
Expired	(250,000)	0.90
Outstanding – March 31, 2025	10,062,500	0.84
Granted	1,140,000	0.64
Forfeited	(171,000)	0.84
Exercised	(1,125,000)	0.70
Outstanding – March 31, 2026	9,906,500	0.84

As at March 31, 2026, the following options were outstanding:

Outstanding (#)	Exercisable (#)	Exercise price (\$)	Expiry date
125,000	-	1.16	September 9, 2029
7,900,000	3,525,000	0.90	June 18, 2029
400,000	200,000	0.90	October 21, 2029
981,500	337,995	0.58	July 25, 2030
75,000	75,000	0.90	February 20, 2027
375,000 ⁽¹⁾	375,000	0.10	June 5, 2033
50,000 ⁽¹⁾	50,000	0.10	August 14, 2033
9,906,500	4,562,995	0.84	

(1) Replacement options – Note 4

The following assumptions were used in the valuation of the stock options granted during the years ended March 31, 2026 and 2025.

	March 31, 2026	March 31, 2025
Annualized volatility	79%	75%
Expected life (years)	3 - 5	5
Dividend rate	0.00%	0.00%
Risk-free interest rate	2.46% - 2.69%	3.01% - 3.28%
Forfeiture rate	0.00%	0.00%

During the years ended March 31, 2026, the Company recorded \$1,604,001 (March 31, 2025: \$3,281,824) of share-based compensation expense based on the vesting of stock options.

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The fair values of the Company's cash and cash equivalents, amounts receivable, and accounts payable approximate their carrying value, due to their short-term maturities and market interest rate.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

a) *Credit Risk*

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk is attributable to cash and cash equivalents, and amounts receivable relating to royalty revenues. Cash and cash equivalents are held with large Canadian banks. Management believes the risk of loss to be remote. The Company's amounts receivable is primarily comprised of amounts owing from counterparties who own and operate the mines underlying the royalty portfolio. Therefore, the Company's amounts receivable is subject to the credit risk of the counterparties who own and operate the mines. Counterparty risk is not deemed significant given payments to date have always been received when due and the counterparty operates a mine with proven operational history.

b) *Liquidity Risk*

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by continuing to monitor forecasted and actual cash flows. The Company has in place a planning and budgeting process to help determine the funds required to support the Company's normal operating requirements on an ongoing basis and its development plans. The Company strives to maintain sufficient liquidity to meet its short-term business requirements, taking into account its anticipated cash flows from royalty interests, its holdings in cash and cash equivalents and its committed liabilities. The Company had working capital (current assets less current liabilities) of \$18,803,347 at March 31, 2026 (March 31, 2025 - \$5,524,483).

c) *Market Risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity prices, and equity prices:

I. Interest Rate Risk

Interest rate risk consists of two components:

- (a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

- (b) To the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

Due to the short-term nature of the Company's financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values during the periods presented. Future cash flows from interest income on cash will be affected by interest rate fluctuations. The Company manages interest rate risk by maintaining an investment policy that focuses primarily on the preservation of capital and liquidity. Interest rate risk is assessed as low.

10. CAPITAL RISK MANAGEMENT

The Company defines its capital as all components of shareholders' equity. In order to maintain its capital structure, the Company is dependent on equity funding and when necessary, raises capital through the issuance of equity instruments, primarily comprised of common shares. The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will make changes to its capital structure as deemed appropriate under the specific circumstances.

The Company is not subject to any externally imposed capital requirements or debt covenants, and does not presently utilize any quantitative measures to monitor its capital. There were no changes to the Company's approach to managing capital during the periods presented.

11. INCOME TAX

A reconciliation of current income taxes at statutory rates with the reported taxes is as follows:

	2026 (\$)	2025 (\$)
Loss for the year	(2,795,932)	(28,548,428)
Canadian federal and provincial income tax rates	27.00%	27.00%
Expected tax recovery	(755,000)	(7,708,000)
Share based payments	433,000	886,000
Non-deductible listing expenses	-	6,069,000
Impact of share issue costs	(357,000)	-
Impact of reverse takeover transaction	-	(1,198,000)
Change in unrecognized deferred income tax assets	672,000	1,949,000
Other adjustments	7,000	2,000
Income tax recovery	-	-

Details of deferred income tax assets are as follows:

	2026 (\$)	2025 (\$)
Deferred tax assets		
Non-capital losses	2,325,000	1,938,000
Exploration and evaluation costs	-	-
Fixed assets and other	10,000	9,000
Financing fees	286,000	2,000
Unrecognized deferred income tax assets	2,621,000	1,949,000

Nations Royalty Corp.

Consolidated Financial Statements

For the Years Ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

12. INCOME TAX (continued)

The Company has the following deductible temporary differences and unused tax losses for which no deferred tax assets have been recognized:

	Expiry dates	2026 (\$)	2025 (\$)
Non-capital losses	2031-2045	8,611,000	7,179,000
Exploration and evaluation costs	No expiry	-	-
Fixed assets and other	No expiry	36,000	34,000
Financing fees	2046-2049	1,060,000	6,000

12. SUBSEQUENT EVENTS

On May 12, 2026, the Company granted 934,000 stock options to directors, officers and employees of the Company exercisable at \$0.955 per share until May 12, 2031.
